The census is important to me because I understand the critical funding that's

0:00:12.680

attached to an accurate count. Those critical programs like Medicaid,

0:00:17.400

school lunches, Head Start, and even our highways.

0:00:22.820

The agriculture community depends on many of the resources that are funded through census data.

0:00:27.620

The rural communities that depend heavily on agriculture also depend heavily on the

0:00:31.980

infrastructure, the hospitals,

0:00:33.300

the education, the programs that are a result of the census information that is gathered.

0:00:38.920

The census is important to my community, the deaf community, because a lot of our services depend on federal funding, which is based on the census.

0:00:50.620

The census is important because I served 34 years in the military and I

0:00:53.700

understand the confusion and misinformation associated with

0:00:56.960

individuals that live all over the continental United States and those

0:01:00.690

standing on point for this nation and their families they need to be counted,

0:01:04.410

and it's important that they're counted.

0:01:06.720

The census is very important for my

0:01:08.120

community because southwest Kansas lacks a lot of resources, we're a very diverse community.

0:01:13.300

The results from the census will really help determine

0:01:16.620

the resources that our community gets.
